

Share ideas with anyone, anywhere – online.

Cisco WebEx Meeting Center
Product Overview

WebEx Meeting Center Highlights

- Take care of business more efficiently by eliminating back-and-forth e-mailing.
- Work with teams across the map; all you need is Internet access.
- Maximise your resources by bringing people together without travel time and expense.
- View participants with high-quality video. Keep track of who's speaking with Active Speaker technology, which follows the current speaker – automatically. Change to Full-Screen video mode for a great virtual video conference experience.

Achieve more, faster and empower your workforce with online collaboration using Cisco WebEx™ Meeting Center. Share documents, presentations and applications at any time and anywhere. Conduct regular meetings between geographically scattered staff members. And hold lively creative sessions with customers, colleagues or internal teams.

Meet online just as if you were face-to-face.

Launch or join a meeting using any web browser. Give invitees the option to connect by phone or integrated audio on their computer or by mobile phone, regardless of location. Make online meetings even more engaging with high-quality video that automatically changes to the current speaker.

Count on Cisco for Secure, Scalable WebEx service

WebEx services are delivered on demand over the global Cisco® Collaboration Cloud. No new software or hardware is required, making these services easy to implement and scale as your needs change. The Cisco Collaboration Cloud offers better than 99.99% reliability, as well as robust security, to meet your strict requirements.

Make online meetings easy and productive with these powerful features.

Document, Application and Desktop Sharing

Share anything with remote attendees in real time. Pass control to attendees so they can share their desktops or annotate yours.

Rich Multi-media Experience

Engage your audience by incorporating multi-media in your presentations: PowerPoint, Flash animations with audio and video.

High-Quality Video

See up to six video participants at a time in high-quality, full-screen video mode with Active Speaker switching that focuses on the person talking.

Integrated Audio

Offer a rich meeting experience with Cisco WebEx integrated audio or other third-party audio. Choose charged calls or toll-free with call-in or call-back. Or give attendees the option to join using integrated computer audio (VoIP).

Active Talker

Identify who's speaking by a flashing icon in the meeting participant panel.

Floating Panels

Deliver full-screen views for attendees while you manage meeting activity behind the scenes.

Meeting Recording, Editing and Playback

Record meetings and applications for future reference, training or demos

Desktop Integration Suite

Initiate meetings instantly from Microsoft Office, Microsoft Outlook, Lotus Notes and a variety of instant-messaging solutions.

One-Click Meeting Access

Start a meeting and invite attendees instantly from your desktop, taskbar or favourite applications.

Easy Meeting Invites

Send invitations and reminders using an automated phone call, text message, e-mail from your local client or IM.

Enterprise Integration

Use a single sign on to access WebEx Meeting Center and other enterprise applications. Plus, it integrates seamlessly with Cisco Collaboration products.

Cross-Platform Support

Meet with anyone using WebEx® on all common operating system platforms: Windows, Mac, Linux and Solaris – or even on a mobile device.

Manage meeting activity without distracting attendees. See the attendee list, chat, manage video and control audio – behind the scenes in floating panels. Monitor any activity, even when floating panels are minimised.

Give attendees a clear, full-screen view with a discreet toolbar for navigation.

Cisco WebEx Training Center is updated regularly to meet the latest system compatibility needs. Please visit www.webex.co.uk to see system requirements.

Languages supported: Brazilian Portuguese, Chinese (simplified and traditional), Dutch*, English, French, German, Italian, Japanese, Korean, Russian*, Spanish (European* and Latin American) and Swedish

* only supported in the MS Windows environment
